

NIGERIA ECOLINGUISTICS ASSOCIATION

NEA2021 INTERNATIONAL CONFERENCE

Recommendations

1. Organizing programmed sessions shared by International Ecolinguistics Association-IEA, Nigeria Ecolinguistics Association - NEA, Japan Ecolinguistics Association-JEA, and China Ecolinguistics Association -China.
2. Coordinating regional ecolinguistics organisations that plan to hold a panel in another regional conference.
3. Launching a digital library which is an online database of digital objects that include texts, still images, audio, video, digital documents, or other digital media formats accessible through the internet. Objects can consist of digitized content like print or photographs, as well as social media posts. In addition to storing content, this digital library provides means for organizing, searching, and retrieving the content contained in the collection. Ecolinguistics and related fields are the material included where global researchers could get benefit from. All researchers, experts, and environmental activists could access the library freely.
4. In case point 3 is not workable, another way of enriching the researchers with sources in the aforementioned fields is to post a link on the four associations where members could donate their own publications and publications of researchers and scholars they could access. A second link is given to all members of the

four associations only to download the material they require for free.

5. In countries which suffered from the disaster of war like Iraq where Mother Nature has been savagely devastated , a portal should be devoted to *war and ecolinguistics themes* in conferences , sessions , and workshops.
6. Environmental crisis should be given a big room in educational institutions . So , experts in education should launch some curriculums and programs on environmental issues that match different sciences.

Lect.Dr.Huda Halawachy

Department of English , University of Mosul,Mosul , Nineveh, Iraq

Chairperson of the Local Organizing Committee /The Nigeria Ecolinguistics Association Conference 2021
